Education

KCC Institute Of Technology and Management , Btech. in Computer Science(Data Science) 2022 – 2026

- GPA: 8.0
- **Coursework:** Operating system,DBMS,Computer Network,DSA

Pillars Public School, Gorakhpur, UP, Intermediate 2021

- PERCENTAGE: 81

S.B.P Vidya Vihar, Katihar, Bihar, Matriculation 2019

- PERCENTAGE: 91.8

Projects

RAG-Based AI Assistant for Semantic Search Over Video Content

- Built a Retrieval-Augmented Generation (RAG) System to convert YouTube playlist videos into a searchable AI Assistant for contextual question answering.
- Converted video audio to text using Whisper with automatic Hindi-to-English transcription
- Applied structured text chunking with metadata(video number, title, timestamps and text) and stored data as JSON files for efficient retrieval.
- Generated sementic embeddings using BGE-M3 and stored vectors in serialized DataFrames.
- Implemented cosine similarity-based retrieval to fetch relevant chunks for user queries.
- Designed prompt templates and generated accurate responses using LLaMA 3.2

House Price Prediction Model (Python, Flask, Scikit-learn)

- Built a scikit-learn regression model to predict house prices using real-world housing features.
- Created a custom preprocessing + model pipeline using joblib for consistent and reliable outputs.
- Deployed a Flask-based web interface for users to input data and get instant predictions.
- Implemented clean API routes with validation, improving prediction accuracy and input handling.

Scalable Food Discovery and Media Platform

- Built a full-stack food discovery web application using React, Node.js, Express, and MongoDB.
- Implemented a Reels-style vertical video feed for restaurant content with smooth, responsive UI.
- Integrated Multer for media uploads and ImageKit for optimized image/video storage and delivery.
- Designed RESTful APIs and scalable MongoDB schemas with secure backend validation.

Technologies

Languages: Java, Python, SQL, JavaScript

Technologies: Git, React.js, Node.js, Express.js, Tailwind CSS, Pandas, Numpy, Scikit-Learn, MongoDB, MySQL, VectorDB,Firestore

Achievements

- Smart India Hackathon: Advanced to the top 30 teams in the pre-qualifier round of a national-level hackathon.
- Secured 1st position in the Code Mania inter-college coding competition.
